

**Jointed Test Finger with Diameter 125 mm Circular Stop Face of IEC60335-2-14 20.2**

Item No.: LX-12502

The test probe is carried out with a test probe similar to that of test probe B of IEC 61032 but having a circular stop face with a diameter of 125 mm instead of the non-circular face, the distance between the tip of the test finger and the stop face being 100 mm.
